FRIDAY MORNING, APRIL 12, 1867.

LOCAL MATTERS.

To Correspondents. We are continually receiving communications or political and other matters from persons who do not attach their proper names to the articles sent; and we take this occasion of repeating that nothing can be published in THE DAILY NEWS without being indorsed by some responsible individual.

WE ARE indebted to Mr. C. F. Vogler for a copy of the Kriminal Zeilung.

Mrs. C. A. Ball. -- Our readers will be pleased to horses attached to Conductor Rigg's car were behave the privilege of reading Mrs. B.'s vernal carols | ing shifted at the Battery terminus they became in our Poet's Corner this morning. We hope Mrs. B. will not punish us with so long a silence again.

EXCURSION AROUND THE HARBOR.-Persons desirous of visiting the different points of interest in | then having no restraint on their movements the harbor, will be pleased to learn that the steamer General Hooker will leave North Atlantic Wharl near the City Square, which checked their speed at 11 A. M. to-day. Tickets to be had at the and enabled them to be caught. A portion of the hotels.

Their stand is so to be cured, and the horse was taken to the Mills well known that we simply refer our readers to House stable, where his throat was cut. The their establishment, knowing that they will have Railway Company have lost several fine horses no difficulty in selecting their supplies.

FIRE AT BAY POINT. PORT ROYAL.—Captain VIN-CENT, of the steamer Fannie, at this port from Savannah, Hilton Head and Besmort, states that as he passed Bay Point, on Wednesday last, the Government storehouses there were on fire, and it was stated that all of them but one had been de-

Young THEVES .- Three young villains were arraigned before the Mayor's Court yesterday for stealing the iron bars and fastenings belonging to the store windows on East Bay and other streets. The proprietors were compelled, in many instances, to put a guard over their property until they could restore the lost fastenings. Lieutenant HENDRICKS was notified of these thefts, and, with his accustomed promptitude, soon traced the lost iron to a junk shop where it had been carried by the thieves. It was identified as the property of the different storekeepers, and the young thieves were soon arrested, and will be turned over to a magistrate for prosecution.

CHOICE TEAS AND FAMILY GROCERIES.—We would direct attention to the advertisement of Messrs WM. S. CORWIN & Co. in another column. These gentlemen have a store that is perfect in all of its details, but some articles have been made specialities, and these are offered to the public as the best in the market. Their line of teas embrace all qualities known to housekeepers, and being imported direct are warranted to be "pure and unadulterated." There are few beverages more grateful than a cup of good tea, and the lovers of the herb will be pleased to learn that they can obtain the genuine article from Mesars. W. S. Conwin

THE CLARENDON PRESS .- We have received the first number of this new weekly, published in Manning, S. C. It has a good motto, j st the word for the-times : "Durate et vosmet rebus servate lecundus." The paper is devoted to "Literature, Agriculture, Morality, General Intelligence and Industrial Improvements." It is published by Messrs. Lucas, David & Lucas, and edited by J.

in the right spirit, and we hope will meet with encouragement and abundant success, in this arduous new enterprise. Mr. E. says in his salutatory: There is no need that we should fold our hands

There is no need that we should fold our hands in despondency. There is much and earnest work to be done. New habits of life are to be formed, suitable to our changed condition, and new methods of labor are to be adopted, and new and hitherto untried fields of labor occupied.

Under the conduct of the undersigned it shall be the aim of the Chrenden Press to aid our people in the new order of things which has fallen upon them. It shall be our especial duty—eschewing political discussion—to gather and disseminate such information as may advance the substantial interests of the people, and to revolutionize those long familiar habits of life unsuitable to our new condition, and which will only entail upon us failure, poverty, aid ruin. MAYOR'S COURT. April 11 .- John Mosely, a col-

Fortunately there are a number of philanmanly art, at a nice little spot round the corner. thropists in the city who furnish a nectar that in-Mosely stung by the insults heaped upon him, and anxious to wipe off the insinuation that he was a marble fountains are to be found on every public " protective," with the only liquid that can bright- street, and there are few who can resist the tempen a rusty reputation, directly acquiesced, and they took their positions, but an uninvited pouceman came up and having surrounded them, took them prisoners, and, no doubt, prevented a horrible catastrophe. Rolla's defence, that his pa would have paid for them, didn't help him the Citidel Green, and at the head of the market, much, for he was put in retirement for five days.

REAL ESTATE. EALE. There were a number of real estate sales yesterday, and the prices realized were better than those of the last week. The sales were well attended, and the competition somewhat brisker.

Mr. A. J. SALDIAS sold the following houses and lots for one-third to one-half cash, the balance payable in yearly installments:

A two-and-a-half story wooden dwelling on the south side of Columbus street, third door east of Meeting street, and known as No. 25, containing four square rooms and attics, with double piazzas to the east and south. The lot, measures thirtynine feet front on Columbus street, by two hundred feet in depth for \$2050. A two story dwelling (wooden,) situated in

Orange Court (Hampstead,) known as No. 5, containing four square rooms, with fire places in each. Lot twenty feet front by seventy-five feet in depth, for \$750.

SALE OF DAMAGED GOODS.—Messrs, JEFFORDS & Co. will sell this day, at the store of Mr. D. O'Nem, in King street an assortment of boots, shoes, hats, trunks, &c., which were saved from the late fire. These goods were only damaged by water, and they will probably bring good prices.

GREEN PEAS.-Spring has so far advanced that the export of vegetables has commenced, and Messrs. KINSMAN & Howell advertise that they are prepared to make shipments of green peas early next week, and will continue the same by every New York steamer. Our Northern friends can now have an opportunity of enjoying these luxuries, and will no doubt be grateful to Messrs. KINSMAN & HOWELL for their efforts to supply their markets.

ACCIDENT ON THE STREET RAILBOAD .- As the frightened from the swingle-tree striking against their feet, and started in a run. The driver, Mr. MAZYCE, kept the reins and was dragged some thirty feet before he losened his hold. The horses dashed forward, and running against a wagon iron work which connected the horses to the car was broken, and one of the horses was found to have Messrs. G. W. Steffens & Co., at the corner of his log fractured just above the fetlock. From an since the road was started, and the one recently killed had been brought from the North only short time previous.

THE RICHMOND BAZAAR.—The fair sex, who are always seeking what good they may do, were not discouraged by the failure of the cause which they held so dear, but have been actively engaged in endeavoring to preserve the names of their brave defenders from oblivion. Memorial associations were formed in the different cities, whose object was to tend the graves of the Confederate dead. WITHERSPOON ERVIN, Esq. He enters on his work to fix headstones, with suitable inscriptions, and ultimately to erect a monument to their memory. In order to effect this, the Ladies' Association of Richmond design holding a Bazaar in that city the latter end of this month. Hollywood Cemetery contains the remains of many of the brave soldiers who fell in the cause, and the ladies of Richmond, knowing that the feeling of the entire South is enlisted in the good work of tending the graves and preserving them from decay, have asked the assistance of the Memorial Associations in other cities. Each State will be represented in the Richmond Bazaar, and the ladies of the South have been invited to lend their aid to further the objects in view. The Memorial Association of this city have taken active steps to assist their Richmond sisters, and have been collecting subscriptions for their Bazaar. The President, Mrs. M. A. Snowered young man of apparently easy manners and DEN, desires all who intend contributing to send their donations to her residence, No. 9 Church

This has recently been refurnished. and those who remember it during the last summer would hardly recognize it in its present changed condition. The fount is of the finest marble, silver mounted, and the whole apparatus is well calculated to please both the eye and the time, but it is greatly enhanced when drawn from

an unexceptional font. Messrs. Buch & Co. are the agents for Monse's Patent Marble Fountains, and are prepared to supply both those and the sods in unlimited quantities. A reference to their advertisement will convince necessity. Besides the Hasel street stand they have branch establishments at the old Guard House, on and offer the same inducements in each to their

THE COTTON CROP .- The first seven months of the Cotton season have passed away, and because of the general want of money in the South, the great staple has been pressed forward to market with greater haste than ever known before, and the large receipts which continued until early in spring, must be considered the real cause of the unlooked for decline in our staple. But the crop may now be said to have reached its limit. Our railroads have ceased, some time since, in bringing down their eight hundred or one thousand bales a day; now two hundred to two hundred and fifty is the most brought down by the cars to

Charleston in a day. But we are much struck with the paucity of the exports. Several sailing packets up for Liverpool are loading but slowly; and even the New York steamers, at the lowest possible rates, fail to attract shipments. In January, every steamer took

To show the falling off, we give a summary shipments for the past three weeks, at rates so low as to make them almost valueless for profit to shipowners.

SHEFFTELD SCIENTIFIC SCHOOL,
ENGINEERING DEPARTMENT,
YALE COLLEGE, November 16, 1868.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Paucils, manufactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

These pencils are very finely graded and have a very mooth lead; even the softest pencils hold the point well; they are all that can be desired in a pencil. It gives me great pleasure to be able to assure Americans that they will no longer be compelled to depend upon Germany or any other foreign market for pencils. LOUIS BAIL, Professor of Drawing, &c.

SHE REVALS SECRETS NO MORTAL EVER KNEW.
She restores to happiness those who, from doleful events, catastrophes, crosses in love, loss of relations and friends, loss of money, &c., have become despondent. She brings together those long separated, gives information concerning absent friends or lovers, restores lost or stolen property, tells you the bustness you are best qualified to pursue and in what you will be most successful, causes speedy marriages, and tells you the very day you will marry, gives you the names, likeness and characteristics of the person. She reads your very thoughts, and by her almost supernatural powers, unvails the dark and hidden mysterice of the future. From the stars we see in the firmament—the malefic stars that overcome or pr-dominate in the configuration—from the aspects and positions of the planets and the fixed stars in the heavens at the time of birth, she deduces the future destiny of man.
